

# Activ8me Public WiFi

Bringing remote workers closer to home

Reduce isolation felt by remote workforces such as employees in remote mining camp accommodation.

## COMMUNICATIONS CHALLENGE

- Limited to no mobile coverage.
- Cost of deploying infrastructure to transient and isolated workforces.
- Separate to the mine's communications.
- Limited entertainment during employee downtime.
- Harsh environmental conditions.

## BENEFITS

- Improved employee wellbeing
- Lower costs related to absenteeism
- Staff retention

## Activ8me WiFi affordably connects mining employees with their families and the internet.

We provide innovative solutions to deliver reliable voice and data services to any Australian location. By offering an end to end service from installation and connection to maintenance and support, we are able to ensure quality and cost-effective solutions.

The next-generation nbn™ satellite broadband technology runs on either solar power and high capacity storage batteries or mains power, to provide a reliable shared public Wi-Fi internet connection.

### THE SOLUTION
