Connectivity On-The-Go

UBR Go

No More Downtime

Its capability to be powered by a dual input USB-C powerbank allows users to experience unbreakable connectivity.

Explore your Creativity

Redefining what you can achieve on the go with integrated PoE output for easy deployment of IP Cam, phone, and access point.

IP Cam   Phone   Access Point

Grow your Possibilities

Its compact design offers twice the ethernet ports compared to typical "devices" giving you the flexibility to connect to multiple networks at the same time.
Stay Connected

UBR Go comes FusionSIM "ready" ensuring connectivity is globally accessible. Users also have the option to customise data pools depending on needs. Experience enhanced performance without the price tag with our UBR Go and FusionSIM.

Why Rising Connection is using equipment designed and built by Peplink?

- Industry leader in both ISP & Data Bonding across multiple technology platforms
- Reliable hardware from entry level professional equipment through to advanced Enterprises solutions
- Worldwide supported and local support here in Australia by fully trained technicians
- Reliable and secure redundancy paths for mission critical sites
- Designed for maximum possible business uptime

This demonstrates to Rising Connection that you will have the Quality, Reliability and Product Support.
